

## For sale or Partnership

### Company with activity in the metal manufacture field

Company with activity in the metal manufacture field and which produces high quality products and owns a **registered Trade Mark** is looking forward to an associate or to a buyer.

The company produces small tools and outfit for the construction building field, concrete mixer, push carts, wheelbarrow, heat stocks and different other parts.

**This is a very good opportunity for business owners how wants to extend the business in Romania or how wants to produce some goods in Romania and to sell it in Europe.** The first Romanian highway that will link Bucharest to Hungary and Europe will get through Arad city. Arad is a city close to Hungarian border and Timisoara (60km).

The company's staff has a lot of experience, a sale network that covers the countr's big cities and a complex diversity of machinery specific in the metal manufacture, including an electrostatic dye works.

The partnership or the association is valid and legitimate in case of a serious investor who has the ability to launch new products and to has access to a sale market for these products.

The company holds its activity in 2 production halls specificaly outfitted and equipped.
